Sermon Series - Autumn 2011

WHY WE BELIEVE IN...

If what we believe doesn't inform the way we live, then it's just knowledge. This Autumn we look at some key teachings of scripture and see why it's important that we receive them not just as information, but as beliefs – truths to live by.

STRENGTHENING CHURCH (PART 2)

In the Spring we spent some time looking the first 9 chapters of 1 Corinthians, this Autumn we return to complete the remainder. Paul's Corinth was at once the Las Vegas, Marseilles and New York of the ancient world - a notorious port city widely known for all manner of vices, and home to a new church.

This letter was written by Paul in response to a letter from this new church asking for guidance . He goes straight to the point on some of the most controversial issues of the day giving us a mine of Christian insight as to the problems Christians face in a pagan environment, not unlike our own.

Paul's advice is an embodiment of the imperishable principles and instincts which should inspire and address our own thinking and contribute towards strengthening church today as well.
